AIG HOSPITALS
INDIA EUS SUMMIT 2023
Explore the power of Therapeutic EUS
AIG Hospitals, Gachibowli, Hyderabad.
1st - 3rd December - 2023
Dear Colleagues,
Endoscopic Ultrasound (EUS) has revolutionized the field of therapeutic GI Endoscopy. It plays a pivotal role in the early detection, accurate staging, and treatment of gastrointestinal diseases. EUS has emerged as a powerful diagnostic and therapeutic tool, enabling minimally invasive procedures and guiding interventions, and thereby significantly improving patient outcomes and reducing the need for invasive surgeries. Today, it is becoming an indispensable technique for any GI Endoscopist. We are thrilled to extend our warmest invitation to you on behalf of AIG Hospitals, Hyderabad for the India EUS Summit 2023.
The event promises to be an enlightening experience for medical professionals passionate about therapeutic GI Endoscopy. The summit will span three days (Friday, 1st December to Sunday, 3rd December), offering an array of valuable opportunities, including LIVE Demonstrations of Endoscopic Ultrasound (EUS) procedures, Didactic Lectures by renowned experts, and an engaging Hands-on Workshop. From basic diagnostic EUS procedures to advanced therapeutic procedures will be covered and discussed in detail.
We believe that the India EUS Summit 2023 will give practical insights that will help you in your GI Endoscopy practice along with an excellent platform to network with peers and stay ahead in the ever-evolving field of therapeutic GI Endoscopy.
This is an exclusive event and registration is mandatory to secure your spot. We look forward to welcoming you to the India EUS Summit 2023, where we will collectively elevate our commitment to providing the best possible care for our patients.
Regards,
PATRON
